

Musculoskeletal radiology is an imaging subspecialty focused on bone, joint, muscle, and connective tissue abnormalities, including orthopedic, rheumatologic and traumatic conditions. By utilizing powerful imaging modalities including CT and MRI, musculoskeletal radiologists are able to assist referring physicians in the diagnosis of conditions and diseases of the musculoskeletal system. From common indications to complex cases, general practitioners and specialists depend on the musculoskeletal radiologist's accurate interpretation of these imaging exams in the diagnosis and treatment of musculoskeletal disorders.

Musculoskeletal Imaging Services:

- ▶ Arthrography
- ▶ Conventional X-ray
- ▶ CT
- ▶ MRI
- ▶ Nuclear Medicine Bone Scans
- ▶ Ultrasound

Therapeutic Services:

- ▶ Discography
- ▶ Steroid Joint Injections:
 - Shoulders
 - Knees
 - Hips
 - Facet Joints
 - Sacroiliac joints
 - Piriformis
- ▶ Vertebroplasty

Radiology Alliance offers musculoskeletal interpretative services at eight TriStar hospital locations and their affiliated outpatient offices.

Centennial Medical Center

2300 Patterson Street
Nashville, TN 37203
Central Scheduling: 615.695.7230

Centennial Medical Center at Ashland City

313 North Main Street
Ashland City, TN 37015
Central Scheduling: 615.695.7238

Hendersonville Medical Center

Dedicated Team of Experienced Professionals

Radiology Alliance has recruited and built a team of musculoskeletal and sports imaging radiologists that is unmatched in the region. All of our musculoskeletal radiologists are board-certified, fellowship-trained and have received extensive training in the complex subspecialty of musculoskeletal radiology. Our five subspecialty-trained musculoskeletal radiologists give patients the benefit of more than 40 years of combined experience.

From the professional athlete to the weekend warrior, our goal is to provide superior patient care through diagnosis and consultation on imaging and treatment options. To achieve this goal, we have organized our musculoskeletal radiology subspecialty team to maximize the benefit of our services to our patients and referring physicians.

With expertise in all imaging modalities, our team of musculoskeletal radiologists is available for consultations on selection of exams, confirmation of a diagnosis, and treatment planning and evaluation.

RADIOLOGY ALLIANCE MUSCULOSKELETAL IMAGING SPECIALISTS

Scott D. Gray, M.D.

Dr. Gray joined Radiology Alliance after completing a fellowship in musculoskeletal radiology at the University of Virginia in Charlottesville, Virginia in 1997. He received his medical degree from the University of Pittsburgh in 1991 and completed his internship in internal medicine, also at the University of Pittsburgh. His residency in radiology was performed at the University of Virginia in Charlottesville. Dr. Gray's special areas of interest and expertise are interventional spine and joint procedures and sports medicine. He has been instrumental in developing and promoting the musculoskeletal radiology service at Centennial Medical Center. Board certified by the American Board of Radiology, he is a member of many national and local medical societies.

Alan W. Horn, M.D.

Dr. Horn graduated from Texas A&M University in College Station, Texas with a Bachelor of Arts in Biology, before earning a medical degree from the University of Texas Health Science Center in Houston, Texas. Following medical school, he completed a transitional internship and a residency in radiology at the University of Tennessee Medical Center in Knoxville, Tennessee. Board certified by the American Board of Radiology in 2004, Dr. Horn completed a musculoskeletal fellowship at Wake Forest University in Winston-Salem, North Carolina. He has a special interest in musculoskeletal trauma and sports related injuries and the associated image-guided diagnostics and therapies.

Lee Hartwell Rogers, M.D.

Dr. Rogers is a summa cum laude graduate of the University of Mississippi in Oxford, Mississippi with a Bachelor of Arts in English. He received his medical degree from Harvard Medical School in Boston, Massachusetts and completed an internal medicine internship at Brigham and Women's Hospital, also in Boston. Following his residency in diagnostic radiology at the University of Alabama in Birmingham, Alabama, Dr. Rogers completed a musculoskeletal radiology fellowship at Massachusetts General Hospital in Boston, Massachusetts. Board certified by the American Board of Radiology, he is a member of the American College of Radiology. Dr. Rogers has a special interest in musculoskeletal interventional procedures, including joint and spinal injections.

James M. Stafford, M.D.

Dr. Stafford received a Bachelor of Science in Biology and Concentration in Mathematics from the University of California at Los Angeles, California. He received a Master of Science in Applied Physiology and a Doctor of Medicine from Finch University of Health Sciences/Chicago Medical School in North Chicago, Illinois. Following completion of an internal medicine residency at Kaiser Permanente Medical Center in Santa Clara, California and a radiology residency at the University of Tennessee in Knoxville, Tennessee, he completed a musculoskeletal imaging fellowship at the University of Florida Medical Center in Gainesville, Florida. Board certified by the American Board of Radiology, Dr. Stafford is a member of several professional organizations, including the Tennessee Radiology Society, American Roentgen Ray Society and Radiological Society of North America.

Steven D. Tishler, M.D.

Dr. Tishler joined the group in 1994. He completed a fellowship in abdominal imaging at Duke University Medical Center, which included training in musculoskeletal magnetic resonance imaging. He received his medical degree from the University of Alabama School of Medicine and completed his residency at Emory University Hospital in Atlanta, Georgia. Board certified by the American Board of Radiology in 1993, he is a member of many national and local radiological societies, including the American Medical Association, Radiological Society of North America, American College of Radiology and the Tennessee Radiological Society. Dr. Tishler served as President of Radiology Alliance from 2002–2006. With a special interest and extensive experience in musculoskeletal MRI, Dr. Tishler works closely with orthopedists and sports medicine physicians to provide optimal care for amateur and professional athletes.
